Ruben:

I have contacted TCEQ and EPA Attorneys but have not heard back about credit, should you guys be determined to be a PRP, you may receive if you dispose of the waste located in the Dana Frac Tanks.

On a nother note, the analytical data that you sent to me shows data for a frac tank 30319. Where is this frac tank located? I don't see that number on any of the frac tanks located on-site.

Thanks

Gary Moore
